Petition to Withdraw Holding of Abandonment Pursuant to 37 CFR 1.181(a)

Dear Sir:

This petition is filed in response to the Notice of Abandonment mailed on September 27, 2006 in connection with the above-designated application. The Notice was issued as Applicant allegedly failed to timely file corrected drawings as required by, and within the three-month period set in, the Notice of Allowability (PTO-37).

On March 30, 2004 the Patent Office issued a **Notice of Allowability** allowing claims 1-33, and requesting corrected formal drawings. A copy of the Notice of Allowability is attached as *Exhibit A*.

On June 28, 2004 applicant timely filed a **Response to the Notice of Allowability**, including Replacement Figures 1-6, and marked up copies of FIGS. 1 and 4. A copy of Applicant's response, along with a copy of the Return-Receipt postcard confirming receipt of the Response at the Patent and Trademark Office on July 1, 2004, is attached hereto as *Exhibit B*.

Following the filing of Applicant's response to the Notice of Allowability, applicant had not received a Notice of Allowance / Part B – Fee(s) Transmittal (PTOL-85) in which to pay the issue fee for the subject application, and requested on three separate occasions a Notice of Allowance as described below.

On November 27, 2005 applicant filed, via facsimile, a **Communication Regarding Status of Patent Application**, including a duplicate copy of Applicant's previously filed Response to Notice of Allowability, including the Replacement Drawings. A copy of this communication is attached as *Exhibit C*.

On January 9, 2006 the Patent and Trademark Office issued a **Supplemental Notice of Allowability**, once again allowing claims 1-23, wherein corrected drawings were no longer requested. However, once again, a Notice of Allowance / Part B – Fee(s) Transmittal (PTOL-85) was not included. A copy of the January 9, 2006 communication is attached as *Exhibit D*.

On January 25, 2006, applicant filed, via first class mail, a **Request for PTOL-85 – Part (B) Fees Transmittal**, which once again included a copy of Applicant's previously filed Response to Notice of Allowability, including the Replacement Drawings. A copy of this communication, along with a copy of the return-receipt postcard confirming receipt of the Request is attached as *Exhibit E*.

On May 1, 2006, applicant filed, via facsimile, a **Second Request for PTOL-85 – Part (B) Fees Transmittal**, along with a copy of the return-receipt postcard from the initial Request of January 25, 2006, a copy of which is attached as *Exhibit F*.

On August 24, 2006, the U.S. Patent and Trademark Office issued a **Corrected Notice of Allowance and Fee(s) Due**, including a photocopy of the initial Notice of Allowability and Examiner's Amendment mailed on June 28, 2004. A copy of this communication is attached as *Exhibit G*.

On July 5, 2006, applicant filed **Part B – Fee(s) Transmittal**, along with the issue fee (\$700.00), publication fee (\$300.00), and Advance Patent Order (\$30.00). A copy of the return-receipt postcard, confirming receipt of the issue fee at the U.S. Patent and Trademark Office on July 10, 2006, is attached as *Exhibit H*. Applicant did not file Replacement Drawings in response to Notice of Allowability which was attached to the August 24, 2006 Corrected Notice of Allowance and Fee(s) Due, as they were previously filed, and accepted by the Patent and Trademark Office, as indicated in the Supplemental Notice of Allowability dated January 9, 2006. However, for the examiner's convenience, a duplicate copy of the Replacement Drawings are once again attached herewith.

It is submitted that a Response to the Notice of Allowability requesting Corrected Drawings was timely filed, and the subject application was not abandoned. Therefore, withdrawal of the holding of abandonment, and grant of the application is respectfully requested.

Respectfully submitted,

Victor A. Cardona

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Victor Cardona on March 24, 2004.

The application has been amended as follows:

In the Specification, Section [0001], line 1, "6,282,639" should read –6,283,639—

Note: the above amendment was made to resolve a minor typographical error with respect to the Pat. Number. See Section [0021] (showing correct patent designation).

2. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: Figure 1 will be labeled –Prior Art–; Figure 4, reference 143 (left) will include an arrow pointing at the roller element. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

Art Unit: 3726

3. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or suggest a method (or apparatus) for adjusting the spacer of a bearing assembly comprising: a preload regulator comprising first and second portion, and a controller coupled to said first and said second portions to detect an electrical contact between said first and said second portions, in combination with the other claimed subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
